

BARTLESVILLE PUBLIC SCHOOLS

MIDDLE SCHOOL & HIGH SCHOOL STUDENT TECHNOLOGY SUPPORT

Student Device Swap Drive-Through for Grades 6-12 Bartlesville High School Hillcrest Drive Loop 1-3 p.m. on Wednesdays, beginning on April 1

Middle school and high school students who have been issued a take-home Chromebook and have a hardware issue can drop off their device and pick up a new one at the main building drive loop at Bartlesville High School at 1700 Hillcrest Drive.

BARTLESVILLE HIGH SCHOOL
Hillcrest Drive Loop
Wednesdays, 1-3 p.m.

Do NOT get out of your vehicle until instructed.

Maintain proper 6-foot minimum social distancing.

There will be a location for you to drop off your device.

Mrs. Meador will place any replacement device at a separate spot which you may retrieve when instructed.

If your Chromebook and/or its charger is lost or was left in your middle school or the high school, you can get a new device and/or charger issued at the drive-through. We won't be checking insurance status or assessing any fees until late in the school year when it is safe for staff to evaluate and repair submitted devices, locate any items left in the buildings, etc.

Students in programs which have not yet issued take-home devices, such as Bruin Academy and some self-contained Special Education programs, will receive specific instructions from their teachers about if, where, and when any check outs will occur. They can participate in the Wednesday drive-throughs only after a device has been issued, if any, via their program.
