

BARTLESVILLE PUBLIC SCHOOLS
Chromebook Responsible Use Agreement
Student Computing Initiative

I acknowledge that I have reviewed the [BPSD Chromebook Guidelines](#), which detail the instructional goals, implementation policies, and the care of the Chromebook. I further understand that Bartlesville Public Schools will NOT issue a device to a student until his or her parent or guardian, or the student if age 18 or older, has signed this agreement.

I understand that the student is expected to:

- Take reasonable steps to ensure that the Chromebook is not damaged or stolen.
- Keep the Chromebook in the case supplied by the District **at all times**.*
- Leave all BPSD labeling in place and in its original condition.
- Bring the Chromebook to school fully charged every day.
- Use the Chromebook at school and at home in a responsible manner.
- Download free apps and extensions from the Chrome Web Store to help with educational activities.

I understand that the parent/guardian is expected to:

- Ensure my child meets the expectations of the BPSD 1:1 Computing Initiative as outlined in the Guidelines.
- Supervise and monitor my child’s use of the Chromebook away from school.
- Pay the the cost of repairing or replacing the Chromebook should the device be damaged, lost or stolen or if the student leaves Bartlesville Public Schools without returning the Chromebook. This cost may be mitigated if I choose to participate in the BPSD Student Technology Insurance Program.

For a student under age 18 to be issued a Chromebook, a parent or guardian must attend a registration/orientation and sign this agreement in person. Parents will have th option of purchasing insurance by cash or check or via debit/credit cards using the RevTrak online service.

*** Only damaged Chromebooks presented in their original district-issued case will be covered by the district insurance policy. Chromebooks presented with evidence that the device was not used in the district-issued case will not be covered by insurance.**
