### What is Canvas?

The Canvas Learning Management System is how we'll harness the power of Chromebooks student will use at school and at home. Each class in PowerSchool already has a matching Canvas course in which instructors can post a course calendar and assignments. Your students can also complete and submit digital assignments and assessments, have class discussions, and more.

### What is *Kung Fu Canvas*?

It's a participation-based Canvas course with training videos and instructions to help you learn how to use Canvas with your classes. The course has six belts you can earn; for each one you complete you will receive an instructional tool you can use at school and at home.\*

Each belt takes about 1.5 to 2 hours to complete. You can start and stop anytime, with any computer's web browser, to fit your schedule.
